Owner & Organizer

Pakistan - The Regional Business Hub

Pakistan - the land of numerous unexplored opportunities has recently earned a good name in the international market for being a vibrant and progressive developing country in the world. The Government of Pakistan has adopted a liberal investment policy to attract maximum foreign investment, where foreign investors can hold up to 100% equity in several economic sectors. As a result, the foreign direct investment in the Country has increased substantially over the past few years, thus differentiating Pakistan from many other countries of the region. Also, the vital indicators of Pakistan's economy have shown extra-ordinary improvement such as enhanced GDP and GNP, increased foreign exchange reserves, stable Pakistani currency and improved balance of payments. Per capita income has crossed US\$ 1254.

Pakistan's economy is gaining more strength with each passing year, underpinned by a buoyant private sector. The world is witnessing the real GDP of Pakistan maintaining a steady growth at one of the fastest rates in the history of the Country and among the highest in the economies of the world. The international trade is increasing owing to revolutionary changes in tariff structures, better international relations and growing domestic demands, both at the industrial as well as consumer levels. The foreign exchange reserves are maintained at a respectable level. Major investments are underway in Engineering & Automobile manufacturing sector, ports and communication infrastructure, telecommunication, information technologies, developing newer sources of energy and power generation etc, to meet the increasing demands. Healthy manpower is mandatory, being the basic requirement for all these sectors; Health Asia ventures to impart strength to this sector.

Current pace of development in Pakistan is no miracle but result of a dedicated and continuous effort by Government of Pakistan through implementing policies for deregulation, liberalization & privatization.

Health Asia - The Premier Health Event of the Region

Health Asia is the biggest ever health event in the history of Pakistan which provides enormous opportunities of learning, information sharing & cooperation and match making to all the stakeholders in the health sector. The Event shall comprise Exhibition and Conferences on latest research & developments / innovations on health, medicine, laboratory technology, diagnostics, surgery, transplants, physiotherapy, patients' referrals, diets etc.. Delegations from Ministry of Health of OIC and Asian Countries, Hospitals of international repute, Medical Institutions, Pharmaceutical Companies are major participants of Health Asia.

14th Health Asia International Exhibition & Conferences

Health Asia International Exhibition, one of the most promising and enduring exhibitions is being organized at the most opportune time when the Government is looking forward to expand the developing sectors of the Country, which have shown tremendous growth in the past few years. The Exhibition would serve as a comprehensive showcase of the latest in technology, medical & diagnostic equipment and machines as well as allied services, while providing investors with a definite outlook of the regional health sector and an opportunity to meet their prospective counterparts and business partners.
