This exhibition is kind of a part of an International Exhibition "CPhI". It is a very good initiative from the team of Pharma Asia and we hope that the participants who are here will get the maximum benefits out of this exhibition and the exporters who have come across the globe will get a good business. Instead of going outside of Pakistan, the manufacturers will get all the international data and updates about this industry and machines here in Pakistan.

Hanif Ajari

This is an excellent platform which brings entire pharmaceutical community right from the CRO to the customers together with an exhibitor of an international community; so, I can say that the atmosphere created over here is not less than CPhI, anywhere in the world or in India.
